What we know and do not know about improving college success

What do we know about effective college information and advising, and how does that knowledge differ from actual practice? Our lead team is conducting a systematic review, scan, and gap analysis to find out.

RESEARCH UPDATE

Resource roundup: Attending college in the time of COVID-19

With the fall semester underway, many questions remain about remote learning and how best to support students during the pandemic. We reached out to our network members to identify research and resources that help shine a light on these issues.

Impacts of accelerated models of remedial English instruction

A new network report provides short-term impacts of three corequisite models—remediation models that accelerate students underprepared in reading and writing into credit-bearing courses—at Texas community colleges. The findings include positive impacts for historically underrepresented groups.
